

Gentell Fastcare™

New technology for better wound care

For Easy Compliance with Federally-Mandated Wound Documentation, Bedside Product Ordering, and Optional Wound Imaging

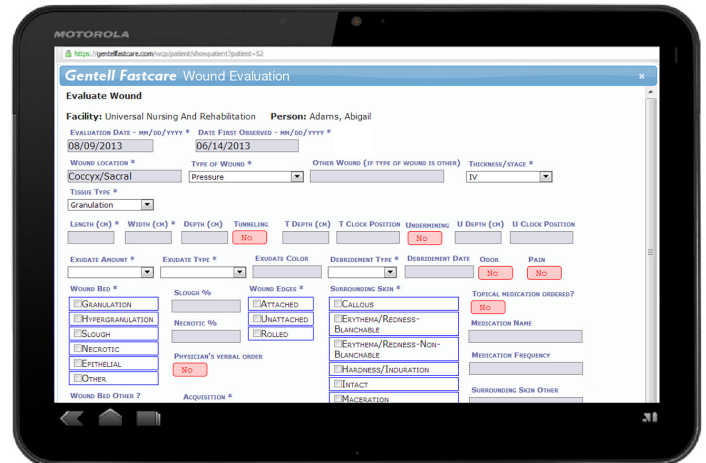

Working in conjunction with the Gentell team of Wound Care Specialists, the Fastcare System delivers 24-hour wound expertise to improve recovery rates, reduce your wound ratio and lower your overall cost of operation.

Here's how it works:

- Your staff conducts weekly wound evaluations with the Fastcare F-314 compliant form on a wireless Fastcare tablet.
- Encrypted data are sent via WiFi or 4G network to secure Fastcare servers for archiving and reporting.
- Gentell Certified Wound Specialists and WOCNs consult on monthly treatments.
- For Part A, Fastcare tracks wound capitation programs and reduces inventory costs.
- For Part B, Gentell ships wound care products to the facility and bills Medicare.
- Fastcare provides facility-wide wound log reports, plus PUSH scores and trend reports for individual wounds.

100% HIPAA Compliant

Gentell's HIPAA policy is accredited by The Compliance Team, and Fastcare meets or exceeds HIPAA requirements for electronic systems including authentication, encryption, data integrity, access control, audit control and transmission security.

Fastcare F-314 compliant Wound Evaluation

Gentell makes better products, too.

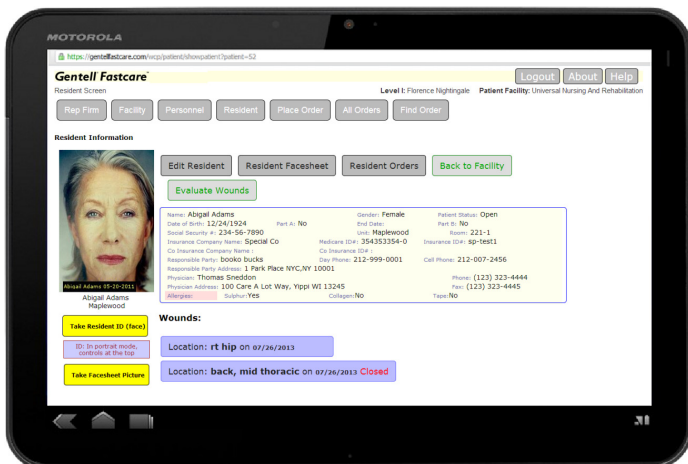

An early leader in Hydrogel, Gentell developed a complete line of superior wound and skin care products by listening closely to patients and nurses. For detailed product information, please see our videos and specification sheets at www.gentell.com

Capitation Plans & Part B Billing

Gentell's wound and skin care capitation programs can lower your operating costs and bring certainty to your wound care budget line. Gentell's Part B partner can even handle all your Medicare Part B needs at no cost to you.

Gentell – making it better since 1994

A leading U.S. manufacturer, Gentell has been making better products to manage wounds since 1994. Our Certified Wound Specialists, 35,000 square foot plant in Bristol, PA, and the Gentell Fastcare System can improve advanced wound care anywhere you operate. For a more innovative and flexible approach to wound care, try Gentell today.
